Subject: RE: Client Reference

I have worked extensively with Connect Middle East to staff key positions on the Dubai Metro Project. Connect Middle East have provided a responsive and professional service, tailoring searches to our particular requirements and selecting high quality candidates. Connect Middle East have access to a wide network of resources and I have been particularly impressed with their connections in the international rail sector. All of the candidates I have hired through the services of Connect Middle East have had a positive hiring experience, and taking receipt of a highly motivated and engaged new hire is something I greatly value. I would not hesitate in using Connect Middle East for any future hire, be it at Engineer or Project Director level.

Nick Berrill
Vice President, Parsons Transportation Group
Programme Director, Dubai Metro
